# SINGING

## Group & Private Lessons

At Jdance we offer an exceptional singing class experience that will elevate your vocal skills to new heights. Whether you prefer group lessons or private sessions, we have the perfect option for you.

**GROUP SINGING::** Our group singing classes provide a dynamic and supportive environment for students to explore their singing potential. Throughout the sessions, students will be introduced to basic singing techniques while discovering songs from various genres, including musical theatre and pop. The lessons are carefully designed to help students develop vocal freedom, projection, and confidence in their voice. By learning how to utilize their entire body efficiently, singers will find singing easier and more enjoyable. For those who wish to further refine their singing technique, private lessons are highly recommended.

But wait there's more. To further enrich their learning experience, many of our students choose to combine singing class with our Jdance 30-minute drama class and/or our Musical Theatre class. Now if you like to sing then you may like drama too! Well, good news. At Jdance, we schedule these classes back to back so they can be enjoyed in one afternoon without the hassle of an extra trip to the studio. That's a whole afternoon of dazzling fun for the budding "Star" to be. These additional classes provide a unique opportunity for students to enhance their confidence and entertainment skills.

**PRIVATE CLASSES::** Our private singing lessons offer a personalized approach to vocal training. Depending on interest, we can accommodate duo, trio, or quad singing classes to reduce costs.

In these private sessions, our experienced instructors will guide you through a comprehensive curriculum, focusing on the following key areas:

- Demonstrating a balanced and efficient posture for singing
- Understanding the basic principles of vocal production
- Connecting good breathing techniques to posture
- Demonstrating emotional interpretation and musicality within songs
- Establishing vocal range
- Building confidence in your voice and performance abilities
- Understanding the basic principles of scales and harmony
- Building an audition song database and exploring opportunities

To make the most of your classes, we recommend bringing the following items:

- A display folder to keep your materials organized
- Pencil or pen for note-taking and annotations
- Notepad (optional) for additional writing or drawing
- Water bottle to stay hydrated throughout the session

Join us at Jdance and unlock your true singing potential. Get ready to shine on stage and become the star you were meant to be!
